**2. EXHIBITON INFORMATION**

## 2.1 Booth Type

### **Standard Booth 3mx3m and Standard Booth 3mx4m**

A Shell Scheme Booth is constructed by the host and contains the following: 2 fluorescent lights, 1 company signboard, 1 information desk, 2 chairs, 1 power socket, 1 bin and Pytex floor with carpet. The booth is installed by panels. If there are damages to the panel (e.g. damages due to nailing, use of glue etc.), repairation charges will be applied on Exhibitor's account.

Customers are only allowed to repair the booth with the consent of the staging unit, ...

### **Standard Booth 2mx2m (Only for SME local exhibitors)**

A Shell Scheme Booth is constructed by the host and contains the following: 2 fluorescent lights, 1 company signboard, 1 information desk, 1 chair, 1 power socket, 1 bin and Pytex floor with carpet. The booth is installed by panels. If there are damages to the panel (e.g. damages due to nailing, use of glue etc.), repairation charges will be applied on Exhibitor's account.

Customers are only allowed to repair the booth with the consent of the staging unit, ...

### **Usage regulations applicable to standard booths**

#### **For standard booth decoration**

- No nailing, drilling, pinning or painting to walls and aluminum frames is allowed
- The use of adhesives and glues for banners, posters on the partitions, frame's structure, beams, poles or floor is strictly prohibited. Any sticker, graphics or any kind of fixtures applied to the booth must be approved by the organizer and official contractor
- The basic structure of the booth must not be altered by dismantling or reassembly without prior approval from the official contractor. In cases where modifications to the standard booth structure are allowed, exhibitors must purchase a construction pass for the personnel handling the modifications. The fee is 110,000 VND per pass (including VAT), payable to SECC management.

#### **For furniture provided in standard booth or rental furniture**

- Do not take or remove any furniture from other booths or outside agreed areas without acceptance from the organizer. Rental booths and furniture should be returned in good condition
- Do not stand, sit or put on item's weighing over 20kgs on tables, shelves. Do not use chair for any purpose other than sitting
- Do not use knife, hammer or machine which can cause damages to booth structure, surface of table or chair
- Do not drag tables, chairs or machines which tear carpet of the booth

#### **For Wall Partition of standard booth**

- The exhibitors must deposit wall partition if you use to stick posters or use metal frame hiflex on wall, each of partition is 500,000 VND/pcs and the official contractor will return the deposit after finishing the show at the counter of official contractor counter if no damage to the wall

- All above regulations are applied to standard booths and take effect immediately after exhibitors have received their booth. The organizer and the official contractor may request the exhibition to stop booth decoration. The exhibition must compensate for damages responsible for any damages to the structure, floor, walls and any part of the property of the organizer. The exhibitor may impose a surcharge determined by the organizer and the official contractor.

#### **For Furniture Provided in Standard Booths or Rented Furniture:**

- Furniture from other booths or areas outside the designated space must not be taken or moved without the organizer's approval. Booth furniture and rented items must be returned in good condition.
- Do not stand, sit, or place objects weighing more than 20kg on tables or shelves. Chairs must not be used for any purpose other than sitting.
- Do not use knives, hammers, or tools that could damage the booth structure, table, or chair surfaces.
- Do not drag tables, chairs, or equipment, as this may tear the booth carpet.

#### **For Partitions in Standard Booths:**

- Exhibitors must pay a deposit if they use partitions to attach posters or mount hiflex frames on the walls. The deposit is 500,000 VND per partition and will be refunded by the official contractor after the event concludes, provided no damage is caused to the partitions. Alternatively, exhibitors may request the contractor to mount posters on the partitions using proper techniques and adhesive materials (additional charges apply).

All of the above regulations apply to standard booths and take effect as soon as exhibitors receive their booths. The organizer and official contractor may halt booth decoration activities at any time. Exhibitors must compensate for any damage to the structure, floor, walls, or other properties of the organizer. Additional fees may be imposed at the discretion of the organizer and official contractor.

**\*\*For the Standard booth, another extra charge to be paid to the exhibition hall owner (SECC) if party B upgrade standard booth or upgrade signboard:**

*\*Management fee for upgrade signboard higher than standard signboard: 25,000VND/sqm upgrade (including VAT)*

*\*Management fee for upgrade from standard booth to special booth: 45,000VND/sqm (including VAT)*

*\*Booth wall deposit fee: 500,000 VND/wall if there is decorative construction or poster pasting on the wall (Will be refunded after the exhibition if there is no damage or dirt on the wall)*

#### **Space Only Booth**

A Space Only Booth only provides space. The Exhibitor may choose to either construct their own booths or appoint an installation company to do it for them. In this case, **[Application Form 3: Space Only Booth Construction]** must be submitted and the exhibitor should contact the SECC Secretariat regarding further costs which may apply as per SECC rules and regulations:

**\* \*\*For Space Only booth, other extra charge to be paid to the exhibition hall owner (SECC)**

To place your company logo on the Information Board, kindly check with the organizer. Please note that this might incur higher costs.

Electricity will be supplied from 27th August, 16:00 - the last day of construction, as we can only supply electricity until every 'Space Only Booth' Exhibitors have completed booth construction. We urge Space Only Booth Exhibitors to set up as swiftly as possible so that the electricity can be installed as soon as possible.

### **2.3 Booth Security**

By submitting Exhibit Carry Out Form (Onsite), exhibits can only be taken out with the confirmation of the host, thereby preventing loss or theft of exhibits during the dismantling process.

Security service will be provided at all times. Nonetheless, we advise exhibitors to station at least 1 member at the booth during exhibition hours. Please take special care of valuable items such as laptops, cameras etc. The Organizer is not responsible for loss or theft.

### **2.4 Information Desk**

The Information desk will be located at Main Gate (View Hoang Van Thai Street) of the exhibition from **13:00 from 25th August – 28th August, 2026**

## 3. RULES AND REGULATIONS

### 3.1. Booth Installation

#### 3.1.1. Area Limits

Exhibit items must be displayed inside the booth and must not block entrance of other participant's booth. Any structure that obstructs the passageway and is of the same color as the pytex is not allowed. All exhibit items and equipments must be non-inflammable.

#### 3.1.2. Appearance

Any decorations, lighting and sound systems should not disturb neighboring booths.

#### 3.1.3. Construction – Drawing Submission

All Space Only Booths must submit [**Application Form 3: Space Only Booth Construction**] with a drawing that includes booth height and materials used to the Secretariat before 19<sup>th</sup> August 2026. Exhibitors may begin installation upon confirmation from the Secretariat.

#### 3.1.4. Structure

The height of the booth is limited to **4.5m**. Participants should ensure no exhibit items are placed to obstruct the passageway or exit. For further information, please contact the Secretariat

#### 3.1.5. Exhibit Display

Exhibit items must not obstruct the passageway, and they must be placed 30cm inward of the own booth. The Secretariat may ask to move the exhibit item if rules and regulations are not followed. This regulation applies to both participants and visitors.

**Exhibit Item Management:** Exhibitors are responsible for taking care of their display items. The organizer is not liable for any loss or damage.

#### 3.1.6. Sound Limits

Exhibitors are allowed to utilize sound equipment but are reminded to be considerate towards other exhibitors. The maximum noise level permitted is 80 dB. The Secretariat reserves the right to disallow the use of sound equipment if the noise level exceeds 80 dB

#### 3.1.7. Lighting

Flashlights and chandeliers are not allowed in the exhibition area. Participants must ensure that all lighting equipment is installed in a way that does not affect neighboring booths. Special note: Each socket is for one device only and cannot be used for lighting. For each lighting connection (bulb/LED strip 3m/1m<sup>2</sup> lightbox), participants must register for a maximum of one lighting connection (100W).

***\*Special Note***

One light will connect with one separate lighting connection, power point is not used for lights. One electric power point is used for one piece of equipment.

For every 3m of LED strip being used for standing illumination, excluding the exhibit, please order 1 Lighting Connection 100W.

The electric supplier will have the right to cut off electric power when there is a contravention of the above regulations.

### **3.1.8. Passageway**

Exhibitors are obliged to keep the passageway clean. All exhibit items are to be placed in position before the start of the exhibition and they must not be placed in the passageway.

### **3.1.9. Booth Plans and Modification**

If the exhibitor wishes to change the booth design, they must notify the organizer, and the change will only be valid after confirmation from the organizer, which may incur additional costs.

### **3.1.10. Exhibit Management**

**Exhibit items are managed by respective exhibitors. Nailing is not permitted on the floor and the walls, nor any painting kind of material are permitted on the floor and in the Shell Scheme Booth.**

If these regulations are breached, there may be possible penalties to the installation company or the exhibition center.

### **3.1.11. Exhibit Item Management**

Exhibitors hold all responsibilities for their items and equipment. Exhibitors cannot claim any type of loss, or damages from the organizer.

### **3.1.12. Dangerous Goods**

All dangerous goods must be reported before the exhibition by submitting [[Application Form 2: Dangerous Goods](#)] to the Secretariat. Exhibitors must also provide safety instructions along with the Application Form.

### **3.1.13. Lease**

Exhibitors have full rights to use their booths. Subletting booths to third parties is strictly prohibited unless get approval from the organizer. The organizer will revoke booth usage rights if exhibitors violate this regulation

### **3.1.14. Cleanliness**

The Secretariat will do its best to provide a clean exhibition environment. During the exhibition, the Secretariat will ensure that the passage area, public area, and public bins are clean at all times. However, waste generated during the construction process and inside the booth must be cleaned by the associated company or exhibitor themselves.

To minimize the impact of dust on the environment and health. During construction, when sanding wood, plastering, and build-up contractors are not allowed to use sandpaper to rub by hand, the use of a sanding machine with a vacuum function is compulsory. Contractors need to equip a vacuum cleaner when using saws and woodcutting tools.

Build-up contractors should minimize the use of plaster because it will become solid waste after dismantling which affects the environment and will be difficult to clean up. Contractors who use plaster have to clean up everything after dismantling, SECC will apply sanctions to contractors who violate this regulation, the penalty fine is equivalent to the violation: chemical drops on the floor (paint, viscous, solvent...).

\*Exhibitors are responsible for maintaining cleanliness in the areas before and behind their booths throughout the event. The organizing committee will conduct regular inspections. We will not assume any responsibility for the hygiene or cleanliness within or around booths.

**3.1.15. Internet** Providing internet network services at a reasonable price is very difficult, so please prepare a pocket WIFI (router) individually.

## **3.2. Safety Guidelines**

Exhibitors should be aware of any possible harmful items or equipment and check them carefully before placing them on display. All maintenance responsibilities are on the exhibitor (ex. any dangerous instruments, laser or x-ray generating equipment, flammable or explosive material, equipment with high voltage or radioactive, particle accelerator, mercury and, etc.

On move-in/move-out days: All workers and people in the hall need to wear a protective helmet (construction workers, supervisors, SECC staff, cleaning and security team, and Organizer) during working time.

Build-up contractors have to use wheeled scaffolding (lockable) for easy transport and safety, to avoid direct contact between the iron legs and the floor. In addition, it will be more flexible in moving and help to release the congestion in the hall.

Booth with a private meeting room, storage, and the area which uses the heat-generated machines must be equipped with fire extinguishers. The fire extinguishers need to be placed in a visible and reachable area.

\* We will not be held responsible for any hazards or incidents involving visitors and pets at the exhibitor's booth.

### **3.2.1. Fire Safety**

Naked flame: heater, oven, boiler, electric stove, dryer, cookers, any flammable equipment (excluding sealed equipment).

In case of a cooking performance, all types of equipment must be under warranty and the person performing must carry valid cooking license. The participant must contact the Secretariat prior to the performance. Use of dangerous goods is only allowed after submitting **[Application Form 2: Dangerous Goods]** and confirmed by the Secretariat.

### **3.2.2. Dangerous Goods**

Petrol, lacquer, thinner, alcohol, diesel, machinery, diesel oil, lubricating oil, etc. Raw high-pressure gas: hydrogen, oxygen, nitrogen, cobalt and, etc.

### **3.2.3. Smoke-Free Zone**

Smoking is strictly restricted inside the exhibition center and is only allowed inside the designated smoking room or outside the building.

### **3.2.4. Secretariat Madate**

The Secretariat reserves the right to remove the booth if any of the above-mentioned rules and regulations are violated (including the preparation/construction period). To ensure safety during the exhibition, please abide by the rules and regulations and contact the Secretariat for any further inquiries.

## **3.3 Others**

### **3.3.1. Disorder**

Exhibitors must not be in any form of an act to disorder the public and neighboring booths.

### **3.3.2. Promotional Activities**

Any performance or public activity is to be performed within the assigned area only. Demonstrations and all other performances should not cause any disorder. Participants are responsible for keeping the passageway clean at all times. Promoting sales items outside the assigned area is not permitted.

### **3.3.3. Promotional Products**

Samples and souvenirs are only to be distributed at an assigned booth. With confirmation from the Secretariat, participants may distribute them in other areas.

### **3.3.4. Special Exhibits**

Exhibitors cannot exhibit their items individually without Secretariat approval.

### **3.3.5. Exhibition Hours**

The Secretariat will organize schedules for exhibit hours, installation hours, and dismantling hours. Please refer to Section 1.2 'Operation Schedule'.

### **3.3.6. Breach of Occupancy**

Even if the participant has not fully used the booth/s, fees for the full area must be paid. Exhibitors who do not inform the cancellation of the booth will lose their priority.

### **3.3.7. Sales**

Only products confirmed by the Secretariat are allowed to be on display for sale. All exhibitors must abide by safety, tax, public hygiene and all other rules and regulations such promotion certification. The

Secretariat restricts any unauthorized forms of sales and marketing

### **3.3.8 Promotional Programs**

Promotional programs will be carried out at the exhibition (discounts, gifts, lucky spins, ...). According to current regulations, Exhibitors that plan to run promotional programs (product trials, lucky draw, promotions...) over 100 million VND at the EXHIBITION need to apply for consideration. Approve in advance with the DEPARTMENT OF INDUSTRY AND TRADE and only apply the policy when CONFIRMED from the Department of Industry and Trade.

(Please register online at: <https://dichvucong.hanoi.gov.vn/nop-truc-tuyen> Or contact the Trade Promotion Department - Department of Industry and Trade: (024) 35 123 123 for more details).

## 4. UTILITY SERVICE

### 4.1 Venue Information

- Address: SECC, 799 Nguyen Van Linh Parkway, District 7, Ho Chi Minh City, Vietnam
- Surface load: 5,000 Kg/sqm
- Dock entrance: 6M (width) × 10M (height)
- Height of the ceiling: 6M
- Electric supply: 220V / 50Hz / single phase, 220V / 50Hz / three phases, 380V / 50Hz / three phases

Type	Component	Details
Electricity	Power supply	3 $\psi$ 4W 380V 3 $\psi$ 3W 220V
	Frequency	50Hz
Water Supply	Valve type	Ball Valve
	Pipe size inward	50mm / 15mm( $\psi$ )
	Pipe size outward	150mm( $\psi$ )(max)
	Water pressure	2kg/m <sup>3</sup> (max)
Drainage	Sub piping size	25mm( $\psi$ )(max)
Compressed Air	Pressure	6.6 ~ 7.7kg/m <sup>3</sup> (max)
	Pipe size	50mm / 15mm( $\psi$ )

## 4.2 Electricity Installation and Usage

Electricity supply details as follows. For 110V users will need to organize their own transformers.

Type	Frequency	Type and Voltage
Display lighting	50 Hz	Single phase current (220V)
Display power supply	50 Hz	Single phase current (220V) Three phase current (380V)

### 4.2.1. Installation Details

*\*Standard Booth:* The Secretariat will install display lights, switches and main power line. (For excess usage of power supply, application must be submitted to the Secretariat).

*\*Space Only Booth:* The main power line will be installed by the Secretariat; however, the exhibitor will need to install internal power lines of the booth. (All electric usage equipment details are to be notified to the Secretariat)

### 4.2.2. Precaution

Shell Scheme Booth will be provided with internal power lines installation, but for space only booth, the construction company appointed by exhibitor must install internal power lines.

Sensitive items/equipment must be installed with a safety device attached to it. Electricity supply begins and ends 15 minutes before/after daily exhibition periods. For booths requiring full-time (24-hour) electricity supply, please notify the Secretariat by submitting [\[Application Form 1: Utilities\]](#).

The usage of multiplex power sockets is not allowed as it may cause a fire. Any electric installation must be done by the installation company.

All exhibitors must include the required capacity of all types of power usage on their application. If there is any shortage of electricity, exhibitors must apply for more capacity. This is to maintain safety of all people involved in the exhibition. In the case of usage overload such as fire or stoppage of power supply, the exhibitor must compensate for the damages caused by the incidents.

## 4.3 Water Supply and Compressed Air

Water supply and compressed air supply begin and end 15 minutes before/after daily exhibition periods. Safeguards must be attached to performing equipment to minimize possible damages in case of a fall of water pressure or water stoppage. Propane gas is allowed inside the exhibition center. [\[Application Form 2: Dangerous Goods\]](#) must be submitted to the Secretariat 1 week before the construction date of the show.

## 4.4 General Note

| Equipment can only be assembled inside the exhibition center.

| Electromotive tools are not permitted to be used inside the exhibition center such as compressor, power saw, electric grinders and etc. Only special glues (e.g. latex) that are easily removable are allowed to be applied on pytex. Permanent glues are not permitted.

| Repair charges apply if there are any damages on the floor and walls.

| Electric facilities are installed below the trench cover, exhibitors must take special care of water spillage and must not clean the floor with water.

## 5. APPLICATION FORMS

Form	Title	Remarks	Submission	Due date
Form 1	Electric	Compulsory for all Space Only Booth	Ms Hiền <a href="mailto:admin@interpetfest.com">admin@interpetfest.com</a>	<b>Deadline</b> <b>20th August, 2026</b> *Surcharge 10% from 10th Feb, and of 30% if registering after 20th August, 2026

**Note/ Ghi chú:**

- The above price does not include VAT / **Giá trên chưa bao gồm thuế GTGT**
- The above price includes electricity consumption during the exhibition. / **Giá trên đã bao gồm điện năng tiêu thụ trong suốt thời gian diễn ra triển lãm**
- The units are not allowed to independently install electrical equipment and are prohibited from using private generators.  
**Các đơn vị không được tự ý lắp đặt các thiết bị điện và không được phép sử dụng máy phát điện riêng.**
- The renting units are responsible for the maintenance of the rented items. In case of damage or loss, the renting units must compensate for all associated costs.  
**Các đơn vị thuê có trách nhiệm bảo quản vật dụng đã thuê. Nếu có hư hại hoặc mất mát, các đơn vị thuê phải có trách nhiệm bồi thường toàn bộ phí tổn.**
- Units needing 24-hour electricity must register with the organizing committee before the setup date.  
**Nếu đơn vị nào có nhu cầu sử dụng điện 24/24 phải đăng ký trước ngày dàn dựng với BTC.**
- After the exhibition hall is sealed, The Owner will stop supplying electricity to all booths, except for those that have registered to use electricity 24/24.  
**Sau thời gian niêm phong sảnh triển lãm, Tòa nhà sẽ ngừng cung cấp điện cho tất cả các gian hàng, ngoại trừ những gian hàng đã đăng ký sử dụng điện 24/24.**
- The power source for the machine will be provided at 12 noon on the last day of staging, participating units should pay attention to ensure electrical safety.  
**Nguồn điện chạy máy sẽ được cung cấp vào lúc 12h trưa ngày dàn dựng cuối, các đơn vị tham gia chú ý để đảm bảo an toàn về điện.**
- Single phase voltage is 220V plus or minus 10%, 50Hz. Three phase voltage is 380V plus or minus 10%, 50Hz. In case the participating units need to use other voltage, please notify at least 15 days before the first day of the exhibition. The participating units will have to pay the additional cost of voltage converter.  
**Điện áp 01 pha là 220V cộng trừ 10%, 50Hz. Điện áp 03 pha là 380V cộng trừ 10%, 50Hz. Trong trường hợp các đơn vị tham gia cần sử dụng điện áp khác, vui lòng thông báo trước ít nhất 15 ngày trước ngày dàn dựng đầu tiên của triển lãm. Đơn vị tham gia sẽ phải thanh toán chi phí phát sinh cho thiết bị chuyển đổi điện áp.**
- Each outlet or power source for products displayed in the exhibition is only used for 01 machine or equipment, item, not used for decorative lights, booth lighting and not placed in hidden, closed areas such as warehouses, back walls, areas that do not meet fire safety standards. Do not use more than the prescribed level to avoid danger due to overload. In case Organizer detects violations in using the power source other than the prescribed purpose, the unit will have to pay additional power source fees based on actual usage.  
**Mỗi ổ cắm hay nguồn điện cho sản phẩm trưng bày trong triển lãm chỉ sử dụng cho 01 máy móc hoặc thiết bị, vật dụng, không được dùng cho đèn trang trí, chiếu sáng gian hàng và không được để vào các khu vực khuất, kín như nhà kho, vách sau lưng, những khu vực không đạt an toàn về PCCC. Không được sử dụng quá mức quy định để tránh nguy hiểm do quá tải. Trong trường hợp BTC phát hiện sai phạm về việc sử dụng nguồn điện không đúng với mục đích sử dụng đã được quy định, đơn vị sẽ phải trả thêm phí nguồn điện dựa trên việc sử dụng thực tế.**
